ANONYMOUS JUN 28, 2021 12:22AM

Anere Goodness Ayobami (S2039808)

I want to use this opportunity to appreciate Dr. Salimah for her systematic approach in handling of the course (Principles of data science). Though I have been practicing some of the basic principles thought in my carrier, attending this course helped me to understand the structure and systematic nature of methods of applying data science. I have basically applied most of the standard principles in implementing business intelligence, big data & data science projects. Thank you very much for the valuable impact you provided.

BERNARD TANG UM JUN 26, 2021 05:30PM

Everybody LOVES me.....

By the way, I am just joking with regards to my introduction, because we all know everybody hates me, hahaa
If there is one thing you all can learn from me this semester, it is the crucial FACT that in the REAL world, you have to love yourself to begin with....
As for Dr. Salimah, thanks for everything and hope we can finally meet in person sooner rather than later.....
Bye for NOW, everyone :-)

By the way, to my classmates, I actually took the time to read your Padlet submissions. For those of you who submit without your face pic shown, come on, it is not fair since Drr. Salimah has shown us her picture right from the start lah :-) — **BERNARD TANG UM**

TO MY AMAZING TEACHER DR.SALIMAH,

The influence of yours extends beyond the classroom, well into the future.

- I'm glad that we have a great introductory course WQD7001 taught by you. It's remarkable that you made my learning practical, informative and organized.
- Your lecture slides are of Data Story telling with visualization, I enjoyed your passionate and lucid explanations.
- Thank you for your kindness while I'm suffering through COVID POSITIVE, I wouldn't have completed this semester without your support ❤️

I'm really grateful to be a part of this course.
I had exceptional Learning experience !

Good Luck Dr, Keep Inspiring 🌟

Thanks & Regards,
Bhavya Sree

Ratna Mahantheran (S2037440)

Hi Dr Salimah,

It's been a great journey with you for the past 3 months. This course is by far my favourite course this term as it was the most organized and smooth sailing by far! Even though data science is not something new to me, I truly appreciate the content of this course as it has given us an inclusive yet broad overview of data science as a whole. I'm also grateful that you've posted the assignments early in the semester as it has given me so much more flexibility and time to execute them well, especially when I'm living in a different timezone.

If the opportunity permits, I would love to take another class with you in the upcoming semesters. Thank you for your hard work!

Yours truly,

Ratna Preeya

ANONYMOUS JUN 21, 2021 12:29AM

Nur Aliah Hasshim (S2031689)

Hi Dr Salimah, thank you for everything!! :)

ORGANIZED

The subject is well planned and organized from the start making it easier for us to manage our expectations for the subject!

INFORMATIVE

This subject helps me turned from having zero knowledge about Data Science to someone who can understand what is it, processes involved in it and how it can be applied!

DELIVERY

The way you deliver your lecture with the interesting and colorful slides, the fun kahoot/quizizz at the beginning each week definitely helps us to understand better!

THOUGHTFUL

Your thoughtfulness in letting us decide the duration that we are comfortable with for some of the assessment and the asynchronous mode throughout Ramadhan is greatly appreciated!

A TEACHER AFFECTS ETERNITY; HE CAN NEVER TELL WHERE HIS INFLUENCE STOPS.

Thivyaa Moses(S2023438)

Hi Dr Salimah,
This course taught me a lot on Data Science in the real world. As a novice in this field, attending your class as my first step towards becoming a data scientist was very helpful to me. I genuinely had fun attending your classes and participating in the entertaining insightful quizzes every week. Apart from the data science, I learnt how to be organised and also how to structure my slides for future presentations.
It's truly sad that we had to spend an entire semester without a face to face class. However, I am looking forward to meeting you As a closing note, I will proudly say my journey towards my dream started from your lectures.

Thank you Dr.

S2039368 STUDENT JUN 20, 2021 01:42PM

Ainaa Najihah Abdul Rahim, S2039368

Asslamualaikum and hi Dr Salimah,

First of all I just wanted to say this is so far my most favourite class! To me, all of the course materials are great and enjoyable! Not only do you teach us Data Science Introduction material, you also help us explore the world of Data Science by introducing Data Scientists, reading materials, websites all related to Data Science! Because of that, your class is actually teaching us the real world of Data Science. I even follow Dr DJ Pati and Dr Roger Peng on Twitter now! Coming from a non-data science or computer science background, all of this is greatly helpful for me to kickstart my data science journey.

S2022695 STUDENT JUN 20, 2021 11:21PM

Afiqah Shazwana Shaik Alawodeen, 2022695

Dear Dr. Salimah,

I must admit that this class has the most structured smooth-flowing assessments compared to my other subjects, which is why you have made me love this subject the most! Not to mention, I truly adore your clear crisp voice projection that is always filled with understandable content.

To begin my Data Science journey under you was such a blessing. The weekly quizzes initiative made me realize that you are not just a lecturer that teaches what you know, but you carry the responsibility of ensuring your students truly understand everything that has been taught really well.

I used to have the thoughts of what if I am not able to cope throughout this ODL mode, but you made it super easy for me. I will always remember you as one of my awesome best-performed educator (and I hope you know that already!) <3

So long, Dr Salimah.

Warm Regards,
Afiqah Shaik

Thank you for providing us with all the kahoot quizzes to strengthen our learning. You are more than just a lecturer, you are an educator that teaches with passion and I am sure all of us can agree on that.

I'm sure you've heard of the phrase, "give a man a fish, you'll feed him for one day but teach a man how to fish, you'll feed him for a lifetime". For me, this class taught me how to "fish" in the Data Science world :)

THANK YOU!

"A good teacher can inspire hope, ignite the imagination, and instill a love of learning."

ANONYMOUS JUN 14, 2021 11:47PM

Eliza Joanne Marianathan (S2022162)

Hi Dr.Salimah, thank you for your guidance, motivation and amazing lectures throughout this semester. I really enjoyed the class with such positive learning environment. This course has given me a strong foundation in Data Science. I have learnt so much from this class, from asking the right questions to data storytelling and deployment.

HT CHOW JUN 14, 2021 11:18PM

Hui Ting Chow S2032914

Thank You Dr. Salimah!

A thousand thanks to you for the wonderful learning experience!

Well Organised Schedule
Never have I encountered a lecturer with such organised learning schedule. The schedule table on Spectrum has made me able to locate the learning resources quickly and easily. The well planned schedule let me arrange my time in advance. Really appreciate for this!!

Well Designed Learning Path
The formative assessments provided me a chance to do a quick revision on what I have learned. The questions are meaningful and related to the core of the subject, thanks for your efforts on this!!

Best regards
Hui Ting Chow S2032914

I love being organized and that is why I structured my teaching schedule that way. Easy for me and easy for students too ... less scrolling up and down! — SALIMAH MOKHTAR

ANONYMOUS JUN 14, 2021 11:07PM

Muhamad Haziq Fuad (S2031779)

Hi Dr. Salimah. This course has assisted me in establishing a strong foundation and understanding of Data Science in totality. I really appreciate all of the knowledge and teachings that you have provided throughout this semester! Enjoy your early retirement Dr. !

||||| 5 KEY TAKEAWAYS FROM WQD 7001 |||||

Definition of Data Science

Data Science Process

Reproducibility

Data Products

Data Storytelling

Let me elaborate a bit. — SALIMAH MOKHTAR

1. Data science in your own words. 2. DS process from asking Qs to deployment. 3. Always make research or project reproducible. 4. Create data products, do not forget datafication and update your DS portfolio. 5. Tell data story that is interesting with contemporary visualizations! — SALIMAH MOKHTAR

ANONYMOUS JUN 14, 2021 08:58PM

Sameer Kumar Maurya (s2038179)

Thank you very much, Dr. I have learned so much in this class. This course has given me a lot of inspiration and guidance in Data Science. It helps me to find out my ability what can I do in this course as a non-computer background student. Under your guidance as a non-computer student, I feel familiar with the course. Your teaching tact and styles were very interesting.

Thank you so much.

I hope to see you again in the future.

peacock

ANONYMOUS JUN 14, 2021 08:21PM

Lee Chang Xiu 17219894

Hello, Dr Salimah. First of all, thank you for the course. I learned a lot. What I like about this course is that the general structure of the course is good and it serves as a good first course to take for the master programme as it gives us a general overview of data science. Things that can be improved is that the course can be more concise so that we can learn more things in shorter time. But overall, the course is good. Once again, thank you for the course.

ANONYMOUS JUN 14, 2021 08:21PM

Low Wai Yen (S2038274)

I join this program not knowing much about data science but 14 weeks later through your engaging lectures I came out knowing more than I did on my 1st week. Safe to say, this is a great course to start my data science journey and I couldn't be more grateful to have you teaching this course. The Kahoot style quizzes was definitely a weekly highlight whenever we have live lectures. I wish you all the best and happy early retirement (let's hope UM grants this to you, Dr!). Thanks for being part of my data science journey and for the wealth of knowledge imparted!

Bryan Thien Chek Hui S2039562

This is definitely a great course of foundation in Data Science! Thank you Dr. Salimah who never fails to provide us with lots of information in the slides as well as the supplemental readings, that helps to make the learning easier and our learning journey an interesting one, not to mention the Quizziz and Kahoot quizzes from you every Monday!

Highly appreciate your effort put into the notes and slides. Overall, I really enjoyed this course because I learned a lot from it!

ANONYMOUS JUN 14, 2021 07:47PM

Pang Woon Yen S2036711

**Pang Woon Yen
(S2036711)**

It has been a great course for the exposure to Data Science. After taking the course, I learned more about the application of different analysis techniques in different situations, and how important is data, science and ethics.

The knowledge gained from this course such as data storytelling also helps me a lot in my current job.

The engagements especially the online quiz really helps me a lot in understanding the course! Thank you so much Dr. for putting effort to do the formative assessment almost every week. Appreciate that. Stay safe and stay healthy.

ANONYMOUS JUN 14, 2021 07:40PM

Loh Xiang Ru S2031315

After completing WQD 7001 Principle of Data Science, I was able to figure out how data science projects work and how important big data can affect the world. In the process of learning, the lecturer's way of teaching is clear, smooth, and helpful. There are no shortcomings, but in my opinion, the online portfolio may be too heavy, but after completing the online portfolio, I truly understood insights and reasons of lecturer for doing so.

Thank you Dr. Salimah for mentoring and guiding us in this 14 week. I wish Dr. Salimah happy retirement in advance. Last but not least, I am glad that you helped for the grouping of assignment, which allowed me to make friends.

SIYI ZHOU JUN 14, 2021 07:24PM

Siyi Zhou

(s2031274)

Hi Dr. Salimah. Thank you for all the works and efforts you have done for this course. This is a wonderful course. It acts like a big picture of the master's program. The part that I like most in this

course is the resources that dr you shared, no matter the videos, the books, and the links. I learned a lot through these resources. Although I just covered some of them. but I will keep it in my drive for future use.

Thank you so much Dr.
best regards!

ANONYMOUS JUN 14, 2021 07:31PM

Fatimah binti Mohd Nizam (17218825)

Hi Dr., thank you so much for this semester. I like your Kahoot quizzes style before the class. I like the background music and the way the quizzes are conduct. Not including them as carry marks is also good for me, as I did not feel pressure before entering the class and just enjoy the quizzes as games. This course is enjoyable and introduced to me to basic things regarding data. Some of the slides are also useful for my other subjects. Appreciate all the knowledge you gave and hope to see you Dr. Halal kan your knowledge and pray for my success in both worlds!

ANONYMOUS JUN 14, 2021 07:21PM

ANONYMOUS JUN 14, 2021 07:04PM

Lau Zhen Yin

Great course for understanding the foundation of Data Science landscape for individuals from non-Computer science background. Definitely will carry on with the knowledge and suggestions given by Dr. throughout this master course.

Thank you so much Dr. Stay safe and enjoy the academic life :3

KHOR YI LUN (ALAN) JUN 14, 2021 07:34PM

Khor Yi Lun (Alan) (S2018292)

Time really flies and here comes to the end of this course. Throughout this courses I have learned the basic yet profound idea of data science knowledge and how to be a competent and ethical data scientist. This attributes to Dr Salimah and her effort to make the course interesting and useful for us.

Frankly speaking I always like the online class method since I could access to the knowledge with my own pace. However, the shortcoming for this would be lack of interaction in the class. Hence I hope there will be combination of online class and physical class for new coming students after this Covid-19 pandemic.

Thank to Dr Salimah and all my friends in this course. All the best and stay healthy.

17218822 STUDENT JUN 14, 2021 07:23PM

Thai Yuan Jiun 17218822

I am grateful to be able to be in this course as part of my Master in Data Science journey. This course had help me in building a good foundation in practicing data science. With the completion of this course, I have a better understanding on data science process, data ethics and also data story telling which is greatly useful for an aspiring data scientist. Thanks a lot, Dr!

All the best and see you in campus!

Best Regards!

ANONYMOUS JUN 14, 2021 09:06PM

Hi, its Sharifah here (S2017968)! It has been great being taught by DR Salimah ! Dr has been a great lecturer and I learnt being more attentive and take instructions seriously with her. She is also a meticulous person which is something I look up to.

Here is something I have before we part :

“What is closure if not a clock? Not an end as everyone imagined, but a beginning.”

I hope our paths crossed again in the future !
